

FAST® Announces Revolution Award For NSRA Events

Memphis, TN – FAST® will continue the longstanding relationship between COMP Performance Group™ and the National Street Rod Association in 2017 by presenting the FAST® Revolution Award at events across the country.

The award, known until last year as the COMP Cams® Thumpr™ Award, will again be presented to a unique vehicle at each of 10 NSRA events from March through September. Winners will be hand-selected by judges looking for a standout hot rod utilizing new-age technology, while maintaining a street rod or muscle car theme. The winning vehicle doesn't require the nicest engine, paint scheme or even FAST® parts, but it must utilize EFI and represent ingenuity.

Some of the 2016 winners included a 1972 Nova with supercharged Gen III engine; 1941 Willys Coupe with 5.7 Hemi; and a Boss 520-powered 1933 Ford Roadster.

FAST will present the owner of each Revolution Award-winning vehicle with a custom-made, one-of-a-kind trophy.

About FAST®

In 2001, FAST® was acquired by the COMP Performance Group™ and moved its headquarters to Memphis, TN, to become the popular electronics company that we know today. After more than a decade in the performance aftermarket industry, FAST® is the recognized leader in advanced EFI technology. Now, not only does FAST® offer the components to adapt virtually any engine to fuel injection, it is also an emerging force in the ignition market. With the latest in easy-to-use electrical components, the experts at FAST® have everything that you need to make high-tech horsepower. Additional information about FAST® and its products can be found at www.fuelairspark.com or at 1.877.334.8355.
